CONSENT FOR MINOR CHILDREN TO PARTICIPATE IN VIRGINIA TECH'S OCCUPATIONAL HEALTH ASSURANCE PROGRAM

Virginia Tech's Occupational Health Assurance Program provides medical services for persons who are exposed to health hazards regulated by the Occupational Health and Safety Administration and other authorities, or who work with animals and/or potentially infectious materials including toxins of biological origin, unfixed tissue and microorganisms. Participation in this program requires submission of a basic medical history including vaccination status. It will be used in conjunction with individual protocol risk assessments to evaluate appropriate medical service's needs (which may include, but are not limited to vaccinations, hearing tests, pulmonary function tests and evaluation by the Occupational Physician), and to determine appropriate individual personal protective equipment (PPE) needs.

[,	, parent or legal
guardian of	, do hereby consent to my child
completing the medical survey and obtaining any	medical services recommended by the
Occupational Physician. If vaccinations are recommed vance to provide my written authorization for the second value of the sec	•
This authorization is effective from	to
