

Lab Waste Reminders

☑ PLEASE CHECK YOUR LAB EVERY DAY!

CLOSE WASTE CONTAINERS	Waste containers must be <u>closed</u> at all times except when adding wastes.
DO NOT LEAVE FUNNELS IN CONTAINERS	Funnels must not be left in waste containers after use unless they are the lidded-type approved by EHS.
PROPERLY LABEL WASTE CONTAINERS	Waste containers must be properly <u>labeled</u> with the word “waste” and a list of chemical contents.
DEFACE ALL EMPTY CONTAINERS	Empty containers must be <u>properly defaced</u> before used for waste collection.
SELECT PROPER CONTAINER	Use proper container that is compatible with the waste. Use secondary containment.
SEGREGATE INCOMPATIBLES	Consider chemical incompatibility when collecting wastes together.
